Amanda – I have just one question. The core profile maps circled “cores within RALs B through F” and “cores with RALs F”. How does that link with Karl’s request that you circle the core profiles that are within the PCB RAL B and RAL E?

Thanks,

Kristine Koch

Kristine –

The core profiles have been modified based on an additional request from Karl Gustavson on 11/19. He requested that we “circle” the core profiles that are within PCB RAL B and RAL E. These maps are saved to the LWG server at the following link:
